FAQ (FREQUENTLY ASKED QUESTIONS)

Q: When power is on, nothing appears or screen is shaking?

A: Video output mode is not properly set, press [TV SYSTEM] of remote control to change output mode until it is properly set.

A: It works well, but the data transfer speed is very slow, why?

A: Please check the USB port version of your computer

Q: My file slow down when I read it with the USB host

A: Some files required a lot of resources, reading files with a too high bitrate are limited by the USB connection and data transfer.

However, once copied into the hard drive, playback is smoother.
